

Prognosis EHR offers portals for every type of user which allows easy-to-use and secure sharing of health records between patients, providers, and employers.

Patient Portal

Send appointment reminders, share lab results, refill prescriptions, and enable online payment of patient statements

Employer Portal

Securely share a patient's medical information, invoices, and outstanding payments with their employer

Referring Physician Portal

Easily send patient history, medical records, documents and messages to your patient's other medical providers

Provider Portal

Quickly and easily communicate with patients and providers from the convenience of your EHR software
